

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

MUCH of the early history of Cambridge has centred in the church and parish of Great St Mary. The churchwardens' book, which is here printed and is the earliest now in the keeping of the parish authorities, is therefore a document of great importance to students of local history. The Council of the Antiquarian Society agreed to publish it if transcribed, and after a very long interval it now appears.

Copious extracts were printed by the late Mr Sandars and Canon Venables in their "Historical and Architectural Notes on the Church," published by the Society in 1869, and the MS. was largely used by the late Mr Charles Henry Cooper in his invaluable "Annals of the Borough," but the book touches on so many subjects of interest that the full transcript will justify its appearance.

It may be stated here that this is the first of a series of parish account books which extend to the present time. The Vicar and parishioners take much interest in these and other documents in the church chest and preserve them with all care. The thanks of the Society and transcriber are due to them for allowing the volume to be removed for the purpose of transcription, and for the facilities they have given for reference to it many times in the course of the work.

Professor Skeat and the Rev. Edmund Gough de Salis Wood have been good enough to give their help in the glossary, and Mr William Henry St John Hope, Assistant Secretary to the Society of Antiquaries, has also put his stores of knowledge on such subjects at the disposal of the editor. The Rev. Henry Paine Stokes, LL.D., Vicar of St Paul's, Cambridge, kindly solved the last difficulty in the glossary by furnishing the

explanation of the position of the Shraggerey in Cambridge in time to include it in the index.

The correctness of the copy is vouched for by the fact that it has been compared with the original by Mr Alfred Rogers, of the University Library, both in MS. and in proof, a precaution the more necessary as the accounts of each year are mostly in different hands and were entered evidently by the churchwardens themselves, whose writing was of all qualities, but generally bad. The staff of the University Press have also shewn themselves as capable as ever of dealing with the difficulties caused possibly by similar qualities in the handwriting of the editor.

Members of his household have also encouraged the editor in a long task by transcribing important portions of the MS. themselves, and to them and their memories he offers his tribute of gratitude.

The editor hopes to issue subsequently some notes on the book, but is anxious not to delay the appearance of a work which may be useful to students in so many different directions, and these will appear therefore as a separate tractate.
